STOVES, TINWARE, &c. THE GREAT DIAMOND HEATER.

This magnificent Stove stands in the same reation to other stoves as the precious jewel from which it derives its name does to other jewels. Profiting by past experience, we have thrown into it all the commendable qualities of the most popular Stoves, and have added inventions of our own, rendering it the best combination of philosophy and michanics now in the market, and making it a perfect tove. By the arrangement the combustion of gasses is perfect, and greater efficiency is obtained to perform what we claim for it, with a great diminution in amount of fuel necessary. It is unequalled in every particular, in beauty, in workmanship, in durability, and as a home necessity is peerless. It is a self-feeder, and not likely to get out of order. We carnestly invite comparison of this stove with others, and feel confident its great superiority will insure the preference.
